CITY OF RESIDENCE Stansbury Park

YEARS OF RESIDENCE 30

AGE 37

OCCUPATION Microwave Engineer/Network Analyst

I have lived in Stansbury Park for over 30 years and care deeply about our community. I want to help restore the qualities that once made this a great place to live and raise a family.

In my youth, I worked for the Service Agency as both a lifeguard and later on the maintenance team for more than a decade. Those experiences gave me a strong appreciation for how well-maintained facilities bring people together and strengthen community pride.

My professional background is in Information Technology, which I believe will be a valuable resource as the Service Agency continues modernizing its infrastructure. Combining that technical expertise with my long history in Stansbury Park, I hope to contribute solutions that are both practical and forward-looking.

I am committed to serving the residents of Stansbury Park with dedication and transparency, helping make our community a place we are all proud to call home.
