

Message From the GM, James Hanzelka

Fall Maintenance

With fall comes a new set of challenges. We will be picking up leaves and shutting down irrigation systems for the winter months. We also have several repairs and upgrades happening on the golf course and throughout the parks and greenbelts, including replacing old and broken rockers at the parks and upgrading some golf course irrigation.

Porter Way Ball Field

We have been addressing playability issues with the ball field at Porter Way, particularly the infield. The facility was built to accommodate softball but was constructed with too great a slope to be usable. By lowering the infield playing surface, we have reduced the drop by more than 25% and created a better, more playable infield.

Future work will include continuing to adjust the outfield as needed, beginning with the area closest to the infield. The updated field will also be fitted with a moveable mound, similar to what we have at Sagers Ballfields, allowing it to accommodate several age groups for baseball. The mound can be removed for softball.

Millpond Bridge

Work is also underway on rebuilding the bridge over Millpond. Rocky Mountain Power is currently removing its power lines from the bridge. Once that work is complete, we will be able to remove the old structure and install a new structure and decking on the existing helical piers.

Community Events

The drone show provided by Lantis and Open Sky was well attended, and everyone seemed to enjoy it. We will evaluate whether it is something we want to continue considering in the future.

Upcoming events include Halloween parties in October and the Turkey Trot in November.

Parks and Facilities

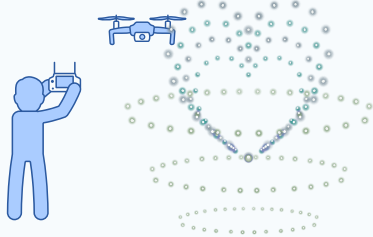

Since school started and the Sheriff's Office reduced patrols in the clubhouse area, we have seen an increase in motorcycle and e-bike activity there. We have asked the Sheriff's Office to resume those patrols. We have also continued to see vandalism targeting our outdoor bathroom facilities. If you see anyone defacing or damaging Agency property, please report it to the authorities.

As a reminder, there is no overnight parking in our parks.

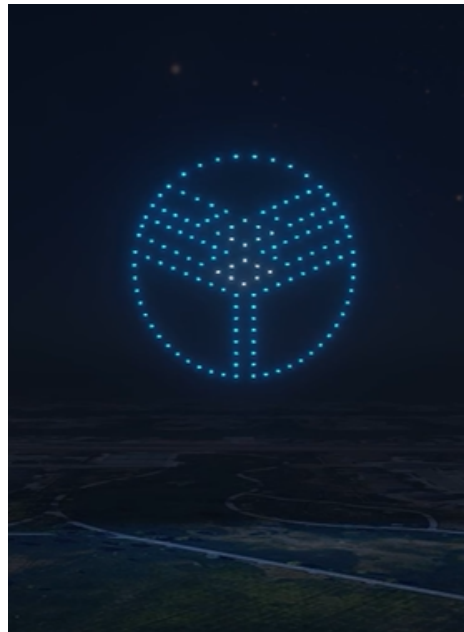

Jim 

Porter Way Park Drone Show

What a wonderful night at Porter Way Park! We loved seeing so many families, friends, and neighbors come together for the Stansbury Park Drone Show. The support from our community made the evening even more special, and we hope everyone enjoyed spending time together and watching the show light up the sky. Thank you to everyone who came out and helped make it such a fun night in Stansbury Park. We're grateful for this community and always love finding new ways to bring everyone together!

Kellianne 

Thanks to Open Sky Pro and Lantis for the amazing drone show. We loved it!

Please Help Protect Our Parks

No Parking on the Grass Near Stansbury Elementary

Parents may have noticed that Tooele County recently added No Parking signs across the street from Stansbury Elementary School. The Stansbury Service Agency will also be adding red striping in this area to further emphasize that parking is not permitted.

One reason for this change is the damage caused when vehicles pull off the roadway and onto the grass. Much of our sprinkler infrastructure is located adjacent to the curb and gutter, and vehicles parked on the grass can damage this critical infrastructure.

Please help us reduce unnecessary maintenance costs by refraining from parking on the grass throughout the park. Thank you for helping us protect our shared public spaces.

Red-marked area: No parking across from Stansbury Elementary School.

SERVING OUR COMMUNITY • PROTECTING OUR NATURE • BUILDING A STRONGER STANSBURY

BAT BOXES

This month, I'm excited to focus on a project that helps both our community and local wildlife: **building bat boxes for our parks.**

Bats help control insects, support plant life, and play an important role in our local ecosystem. Providing safe places for them to roost is a simple way we can help.

BAT BOX BUILD DAY

In October, I'll be hosting a community Bat Box Build Day at Porter Way Park. Families can work together, learn more about bats, and help create safe roosting spaces for our area.

VOLUNTEERS NEEDED

I'm also looking for teens who would like to help during the event.

For the date, time, registration, and volunteer details, see the flyer in this newsletter.

Thank you for supporting my project and helping make a difference in Stansbury!

ROYALTY BUILD**

BAT BOXES

DID YOU KNOW?

- Bats can eat over 1000 insects every hour
- Bats eat in the evening when mosquitoes are prominent
- Bats pollinate plants and spread seeds
- As development increases, bat habitat decreases

FAMILY BUILD DAY

- Sponsor and build a bat box
- Come learn about our local ecosystem
- Free activities for all ages
- Use the QR code for more info and registration

TEENS, WE NEED YOU

- Get your youth group to help at the Family Build Day Event
